# ABOUT THE INSTITUTION

LBS College of Engineering, Kasaragod, an autonomous institution owned by the Government of Kerala and managed by the LBS Centre for Science and Technology, is committed to academic excellence, innovation, and technological advancement. Spread across 52 acres, the college provides quality technical education through experienced faculty, modern laboratories, and a vibrant academic environment that encourages creativity and professional development among students.

The institution actively promotes innovation and entrepreneurship through various student initiatives and facilities such as the LBS Maker Space, where students are encouraged to transform their ideas into prototypes and practical engineering solutions. The institute also hosted the IEDC Summit 2025, Asia's largest innovation and entrepreneurship summit for students, bringing together innovation communities from across the state, with a special chartered train arranged between Thiruvananthapuram and Kasaragod, marking a first-of-its-kind initiative in India for a startup and innovation summit.

## ABOUT THE DEPARTMENT

The Department of Electrical & Electronics Engineering offers a B.Tech Programme with strong emphasis on both theoretical knowledge and practical exposure in areas like electrical machines, power systems, power electronics, control systems, and renewable energy. With dedicated faculty and well-equipped labs, the department encourages innovation, research, and industry interaction. Its alumni serve in prestigious organizations such as NTPC, KSEB, HAL, DRDO, ISRO, Railways, and more, while the EEE Students' Association actively promotes technical and leadership activities.
